

Amy and Kris Gadbaw had an increased water usage for the period between 7/15- 8/15. Averaging about 6,120 gallons on average for the household, this billing period they had 55,800 gallons of usage. Speaking with them, we discovered they had a leaking toilet and had left a garden sprinkler on overnight. They would like a sewer adjustment for the garden portion of the extra water accidentally used for 6,000 gallons, a total of - \$49.56.
