Subject: Tennis Court Grant Proposal

Hey Guys!

There has been some recent interest in giving the tennis courts a facelift (resurface/repaint/new poles/nets) in addition to creating an Earlham Tennis Club for Middle School and High School students.

With your permission, Nathan Liston, the Spanish teacher who also has a tennis background, and myself are working on a grant through The Wellmark Foundation. It is a small match grant for up to \$25,000. We are currently have calls out to get quotes from a company out of Des Moines and one out of Omaha. The company from Omaha came out last week and gave us a vague \$15,000 (resurface/paint only, but the cement under would have to be redone) or \$30,000-\$50,000 (new cement/resurface/paint/nets/net poles). We have requested a more detailed quote and are hoping to hear back from them soon.

Obviously we will need to come up with some other funds to match and have some ideas in terms of these sources, but nothing in concrete yet.

In talking with Mary Sue today, she is going to add this to next meeting's agenda for you to consider/grant permission to proceed.

We would be happy to answer any other questions you might have. Just wanted to give you a heads up!

Thanks,
Mindy Harskamp
