Subject: RE: email addresses

Mary Sue,

The law is very clear on this, if a government official uses a personal e-mail account to conduct government business they open up their personal e-mail accounts to scrutiny under FOIA.

I would recommend city issued e-mail addresses for everyone's privacy and just general outward appearances.

Subject: email addresses

Hi Cade,

What are your thoughts on council member email addresses.? Should they have separate ones for city emails? If someone wanted to look at city emails, Freedom of Information Act would allow their personal emails to be looked at?

Hmmm?

Thanks, Mary Sue
