I spoke to the "contractor"
He is not a licensed plumber.
Just a good guy, and is glad not to do the project...

Okay, told you I'm kind of wonky here. THIS is the guy that said he talked to you and was told to come in and get trade permit.

for 5-9-23
mtg

Here are the inspection notes taken from 3-21-22 @ 1PM

George Montross –
515-238-2963

Check on progress for everything.
Deck steps are not completed.
He will be installing a new water line, I informed him of permit requirements.
JV

Stop into see Mary Sue @ city hall after

Inspector Notes:

Gave the homeowner a handout to build stairs
Basement outlet to service furnace still had extension cord wired to power it
Instructed the homeowner the outlet needed fixed and the deck needed completed before we came back out
Done

Hi Jason,

Another problem child! Have you guys been in Mr. Montross's house lately. Police Chief said the owner claims the building inspector was just in there a couple of weeks ago and inspected the furnace, joists, and porch. Does that ring true to you?

Thanks. Mary Sue
